

# CAT CHEMICALS - PROJECTS

## Heatproofing, Waterproofing and Protective Coating Projects

# PROJECTS

CAT Chemicals has successfully delivered high-performance Heatproofing, Waterproofing, and Protective Coating solutions for leading industrial and commercial organizations across Pakistan. Our systems are engineered for durability, energy efficiency, and long-term protection.

### Century Paper & Board Mills

Protective coating for industrial structures to prevent corrosion and enhance structural life.

### United Motors

Heatproofing and waterproofing system applied for long-term roof protection and energy efficiency.

### Sapphire Textile

Advanced heatproofing and waterproofing solution to reduce heat gain and ensure leak-free performance.

### Unilever

Protective roof coating application for heat reflection, waterproofing and extended roof life.

### Alkaram Paper

Waterproofing and protective coating system for industrial roof and structural protection.

### PepsiCo

Heatproofing and waterproofing treatment for improved thermal performance and durability.

### Proctor & Gamble

High-performance protective coating application for industrial roof protection and energy savings.

### Additional Projects

Multiple industrial and commercial projects completed across Pakistan with proven results.

**100% Waterproof**  
Leak-free protection

**Heat Reflective**  
Reduces heat & saves energy

**Corrosion Resistant**  
Extends structural life

**Long Term Durability**  
Engineered for lasting performance
